

MONARK EXERCISE

FOR LIFE AND PERFORMANCE

Information about relocation to new premises

Dear customers and partners,

We would like to inform you that Monark Exercise AB is relocating to new premises. After many years at Kroons Väg 1, we are now taking a step that strengthens our long-term focus on the development and production of ergometer bikes. As of 15 November 2025, you will find us at Fabriksvägen 8 in Vansbro.

The reason for the relocation is straightforward: we want to create better conditions for modern, efficient and quality-assured production. The new premises allow us to organise material flows and workstations in a way that supports both our internal processes and our quality standards. This means shorter lead times, an improved working environment and strong opportunities to continue developing our products.

For you as a customer, supplier or other partner, the relocation does not involve any changes to our contact channels or our commitments. However, it provides us with a more stable foundation to deliver the same high quality you are used to and to continue improving going forward.

We appreciate your cooperation and your continued trust, and we look forward to continuing to build our relationships in our new premises as well. If you have any questions regarding the relocation, you are most welcome to contact us.

Kind regards,
Monark Exercise AB
